

Antonin Point

Application for a Data / IA / ML Scientist position

antonin.datas@gmail.com | (+33)784228858 | Website | Linkedin | Github

Education

MSc in Data Science (MSIAM) , Grenoble INP ENSIMAG	Sep 2023 – Aug 2025
• Relevant Coursework: Computer Science, Machine / Deep Learning, Finance, Natural Language Processing, Statistics & Stochastic Processes	Grenoble, France
BSc in Computer Engineering , Grenoble INP ENSIMAG	Sep 2022 – Jun 2023
• Relevant Coursework: Computer Science, Linear Algebra, Probabilities & Statistics	Grenoble, France

Experience

AI Research Scientist , National Institute of Informatics	Mar 2025 – Sep 2025
• Deployment of a meta-labeling fine tuning framework on SOTA LLMs for financial time series forecasting.	Tokyo, Japan
• Submitted a paper at the 6th ACM International Conference on AI in Finance. Main tools: Git, DeepSpeed, Docker, Optuna, Pytorch, Scikit-Learn	
Data Scientist Intern , Hygie31 (DINSI department)	Jun 2024 – Aug 2024
• Automation of the optical pharmacy data collection and cleaning process.	Toulouse, France
• Development of a new database for efficient data retrieval.	
• Development of an app to visualize real-time KPIs. Main tools: Excel, Git, Informatica, Power BI, Snowflake (Cloud)	
AI Assistant Engineer , CNRS (DAO team)	Jun 2023 – Aug 2023
• Extension of ScanNet, a Deep protein structure Learning architecture.	Grenoble, France
• Integration of Laplacian motion vectors to find binding sites more precisely. Main tools: Git, Pandas, Tensorflow, Scikit-Learn	

Projects

NBA Career Length Estimator	Sep 2025 - Sep 2025
Complete pipeline analyzing NBA rookies statistics, fine-tuning and deploying a ML classifier embedded in a web service to predict career length. Main Tools: FastAPI, Numpy, Optuna, Pandas, Python, Scikit-learn, XGBoost	Carqueiranne, France
Agentic AI Career Assistant	Aug 2025 - Aug 2025
Development of an interactive agentic AI (LLMs) workflow automating profile analysis and job matching based on user's search criteria. Main Tools: Pandas, Python, Langchain, Streamlit	Tokyo, Japan
Atmo Data Science Challenge	Nov 2024 - Jan 2025
Implementation of a semi-supervised validation aid for miniaturized air quality measurement tools. Main Tools: Polars, Plotly, Sklearn, VSCode (Python)	Grenoble, France

Skills

Programming: Python (advanced), SQL (advanced), Java (intermediate), Bash (Intermediate)

Libraries & TypeSetting: LangChain, $\LaTeX$, Numpy, Pandas, PowerBi, Pytorch, Sklearn, Snowpark, Streamlit

Languages: French (Native), English (Fluent-C1 TOEFL 95/120), Spanish (Intermediate-B1)
